

平成25-令和4年度 水質検査結果 採水場所: 当別ダム湖・中央 中層(水深5m(H25.H26)、全水深1/2(H27~))

Water quality inspection results table for H27 and H28 dams (middle layer). Includes columns for inspection items, H27 and H28 data, and summary statistics (max, min, average, number of measurements).

Water quality inspection results table for H27 and H28 dams (bottom layer). Includes columns for inspection items, H27 and H28 data, and summary statistics (max, min, average, number of measurements).

Water quality inspection results table for H27 and H28 dams (bottom layer). Includes columns for inspection items, H27 and H28 data, and summary statistics (max, min, average, number of measurements).

平成25-令和4年度 水質検査結果 採水場所:当別ダム湖・中央 中層(水深5m(H25.H26)、全水深1/2(H27~))

Table with 4 main sections: 水質基準項目 (Water Quality Standards), 水質基準項目 (Water Quality Standards - continuation), 水質基準項目 (Water Quality Standards - continuation), 水質基準項目 (Water Quality Standards - continuation). Each section lists various water quality parameters and their measurement results across different dam levels (R3, R4, R25). Parameters include temperature, pH, electrical conductivity, various chemical species, and biological indicators.

Table with 4 main sections: 水質項目 (Water Quality Items), 水質項目 (Water Quality Items - continuation), 水質項目 (Water Quality Items - continuation), 水質項目 (Water Quality Items - continuation). This table lists specific water quality items and their results, including parameters like phenols, cyanides, and various organic substances.

Table with 4 main sections: 検査項目 (Inspection Items), 検査項目 (Inspection Items - continuation), 検査項目 (Inspection Items - continuation), 検査項目 (Inspection Items - continuation). This table details the inspection items, including physical water quality, chemical oxygen demand (COD), and specific chemical substances like organophosphorus compounds and organofluorine compounds.
